5. What is ACVFFI

Unified voice of victims and their families. Part of the ICAO list of International Organizations, recognized by its Council in 2016.

What we do

We focus on assisting victims and their families, as it is not a priority in the aviation industry.

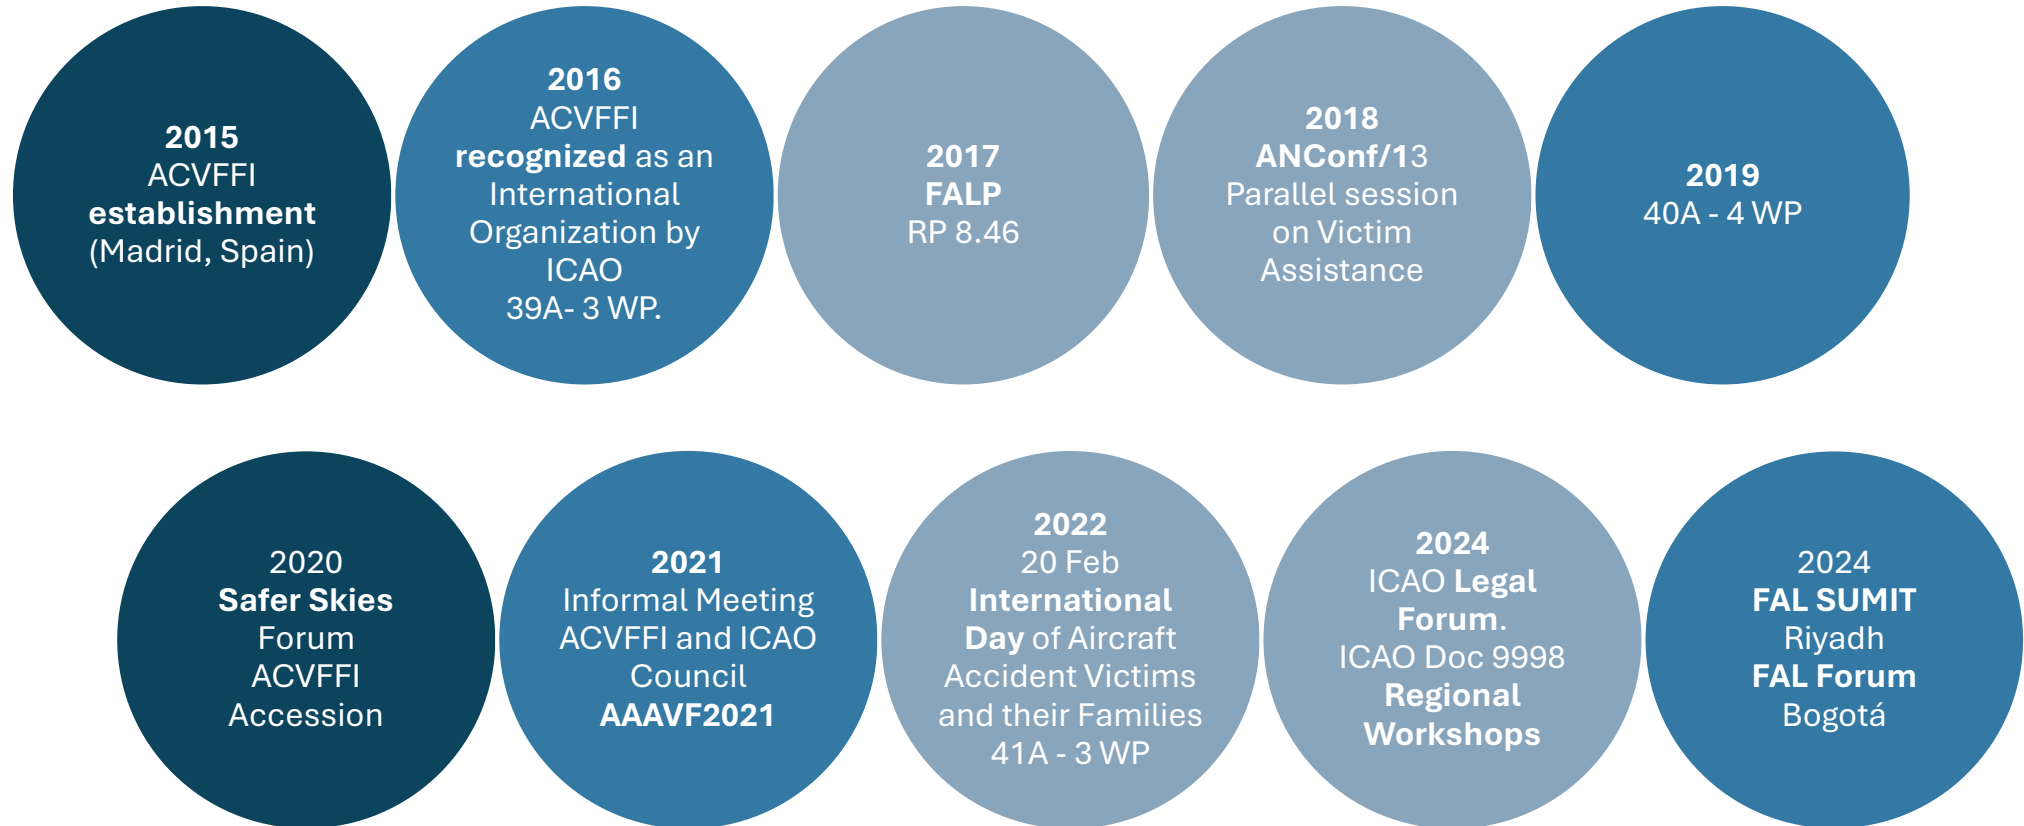

We achieve common models in regulations that serve States and International Organizations to promote the implementation of ICAO Doc 9998 and 9973.

Despite the enormous economic resources generated by air transportation, victims and their families are greatly forgotten after the spotlight of a tragedy fades.

No financial resources to support our activity.

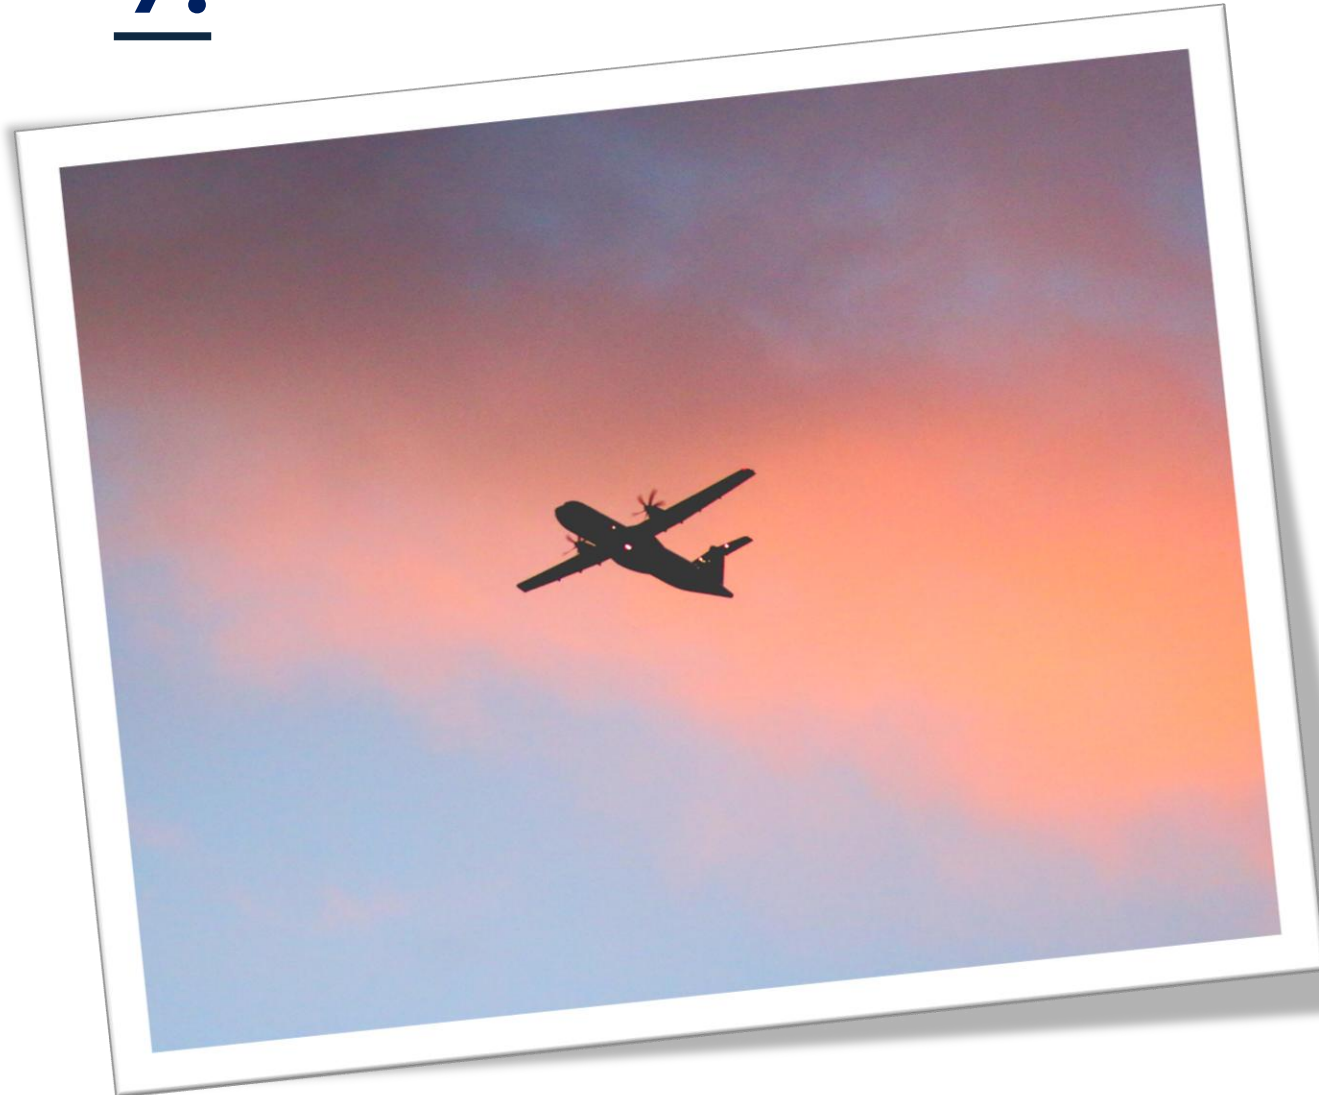

We work for the memory of our loved ones for the safety of the living, starting from the lessons learned from our tragedies.
